SterilTube

Our range of SterilTube air sanitizing devices offers models that are attentive to the different needs of our customers.

SterilTube 40, SterilTube 100 and SterilTube 150 differ in their range of action, which corresponds to the size of the area of the environment.

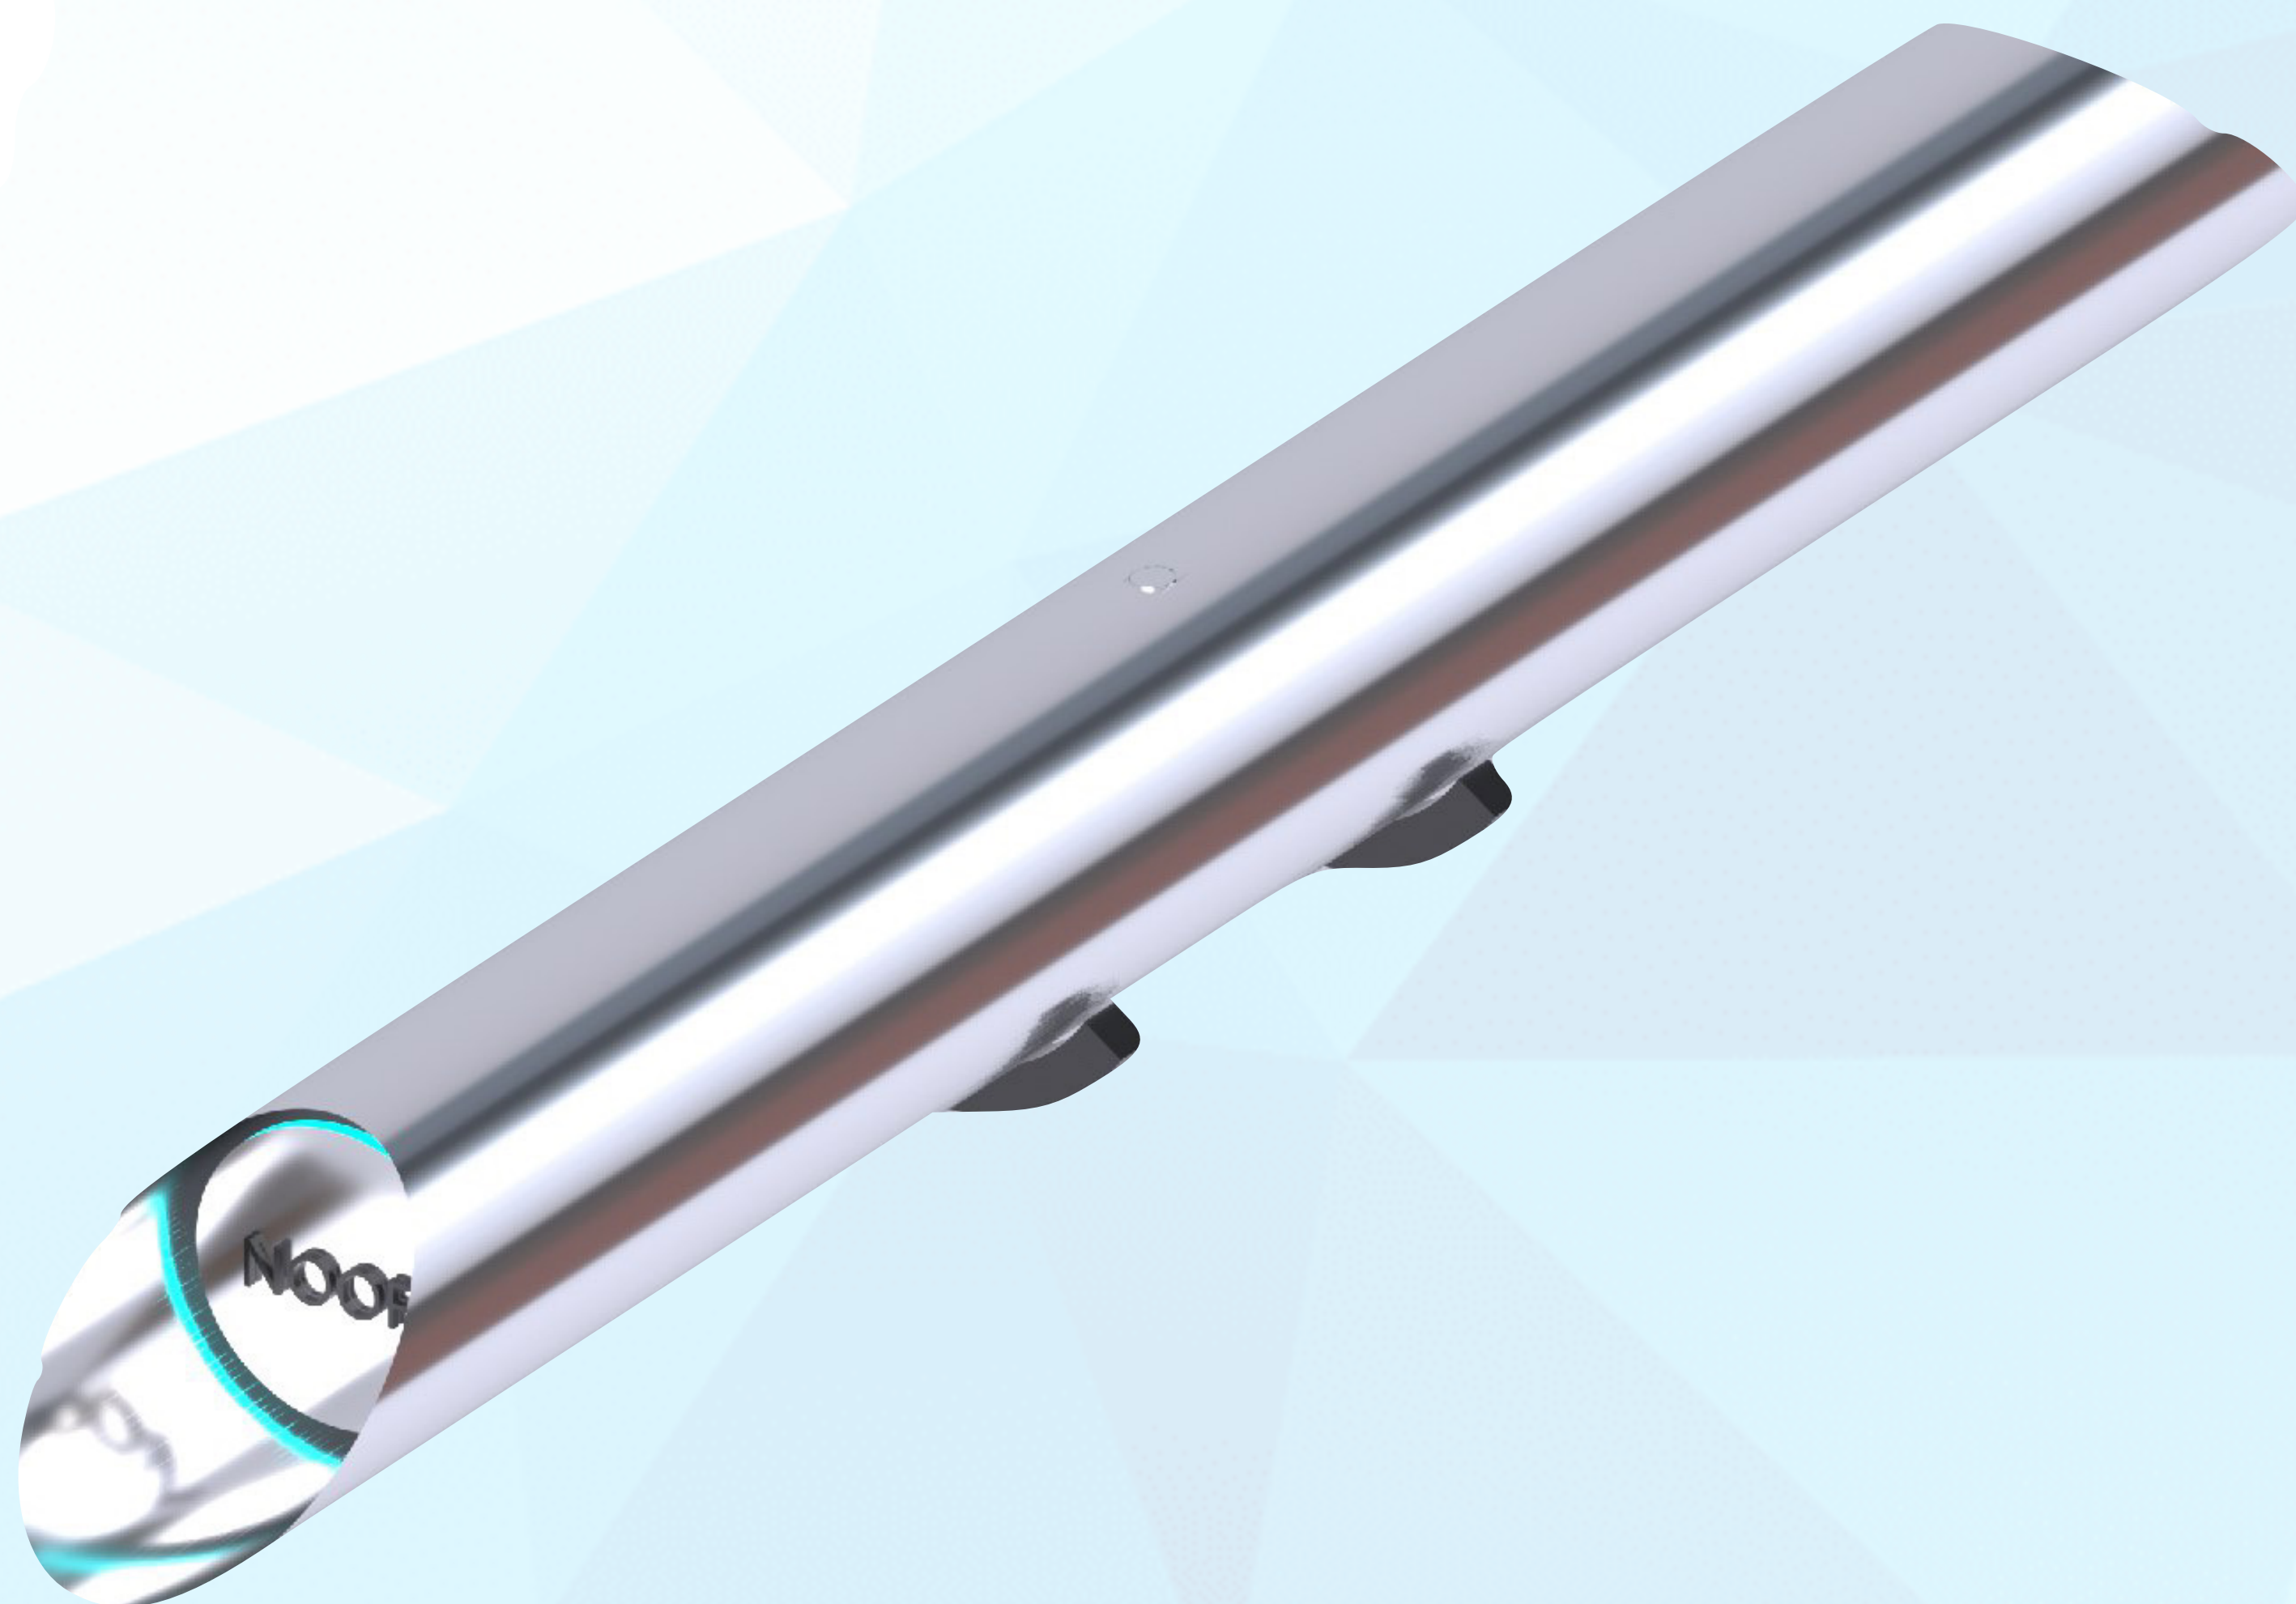

SterilTube 40, a small size model, suitable to be placed in small rooms or, for example, on the desk of your office.

SterilTube 100, the intermediate and most versatile model of the product range, is ideal for a medium-sized room. SterilTube 100 is able to sanitize up to 35.93 cubic meters per hour.

SterilTube 150, the larger model, designed for larger environments, has been designed to be applied directly to the wall.

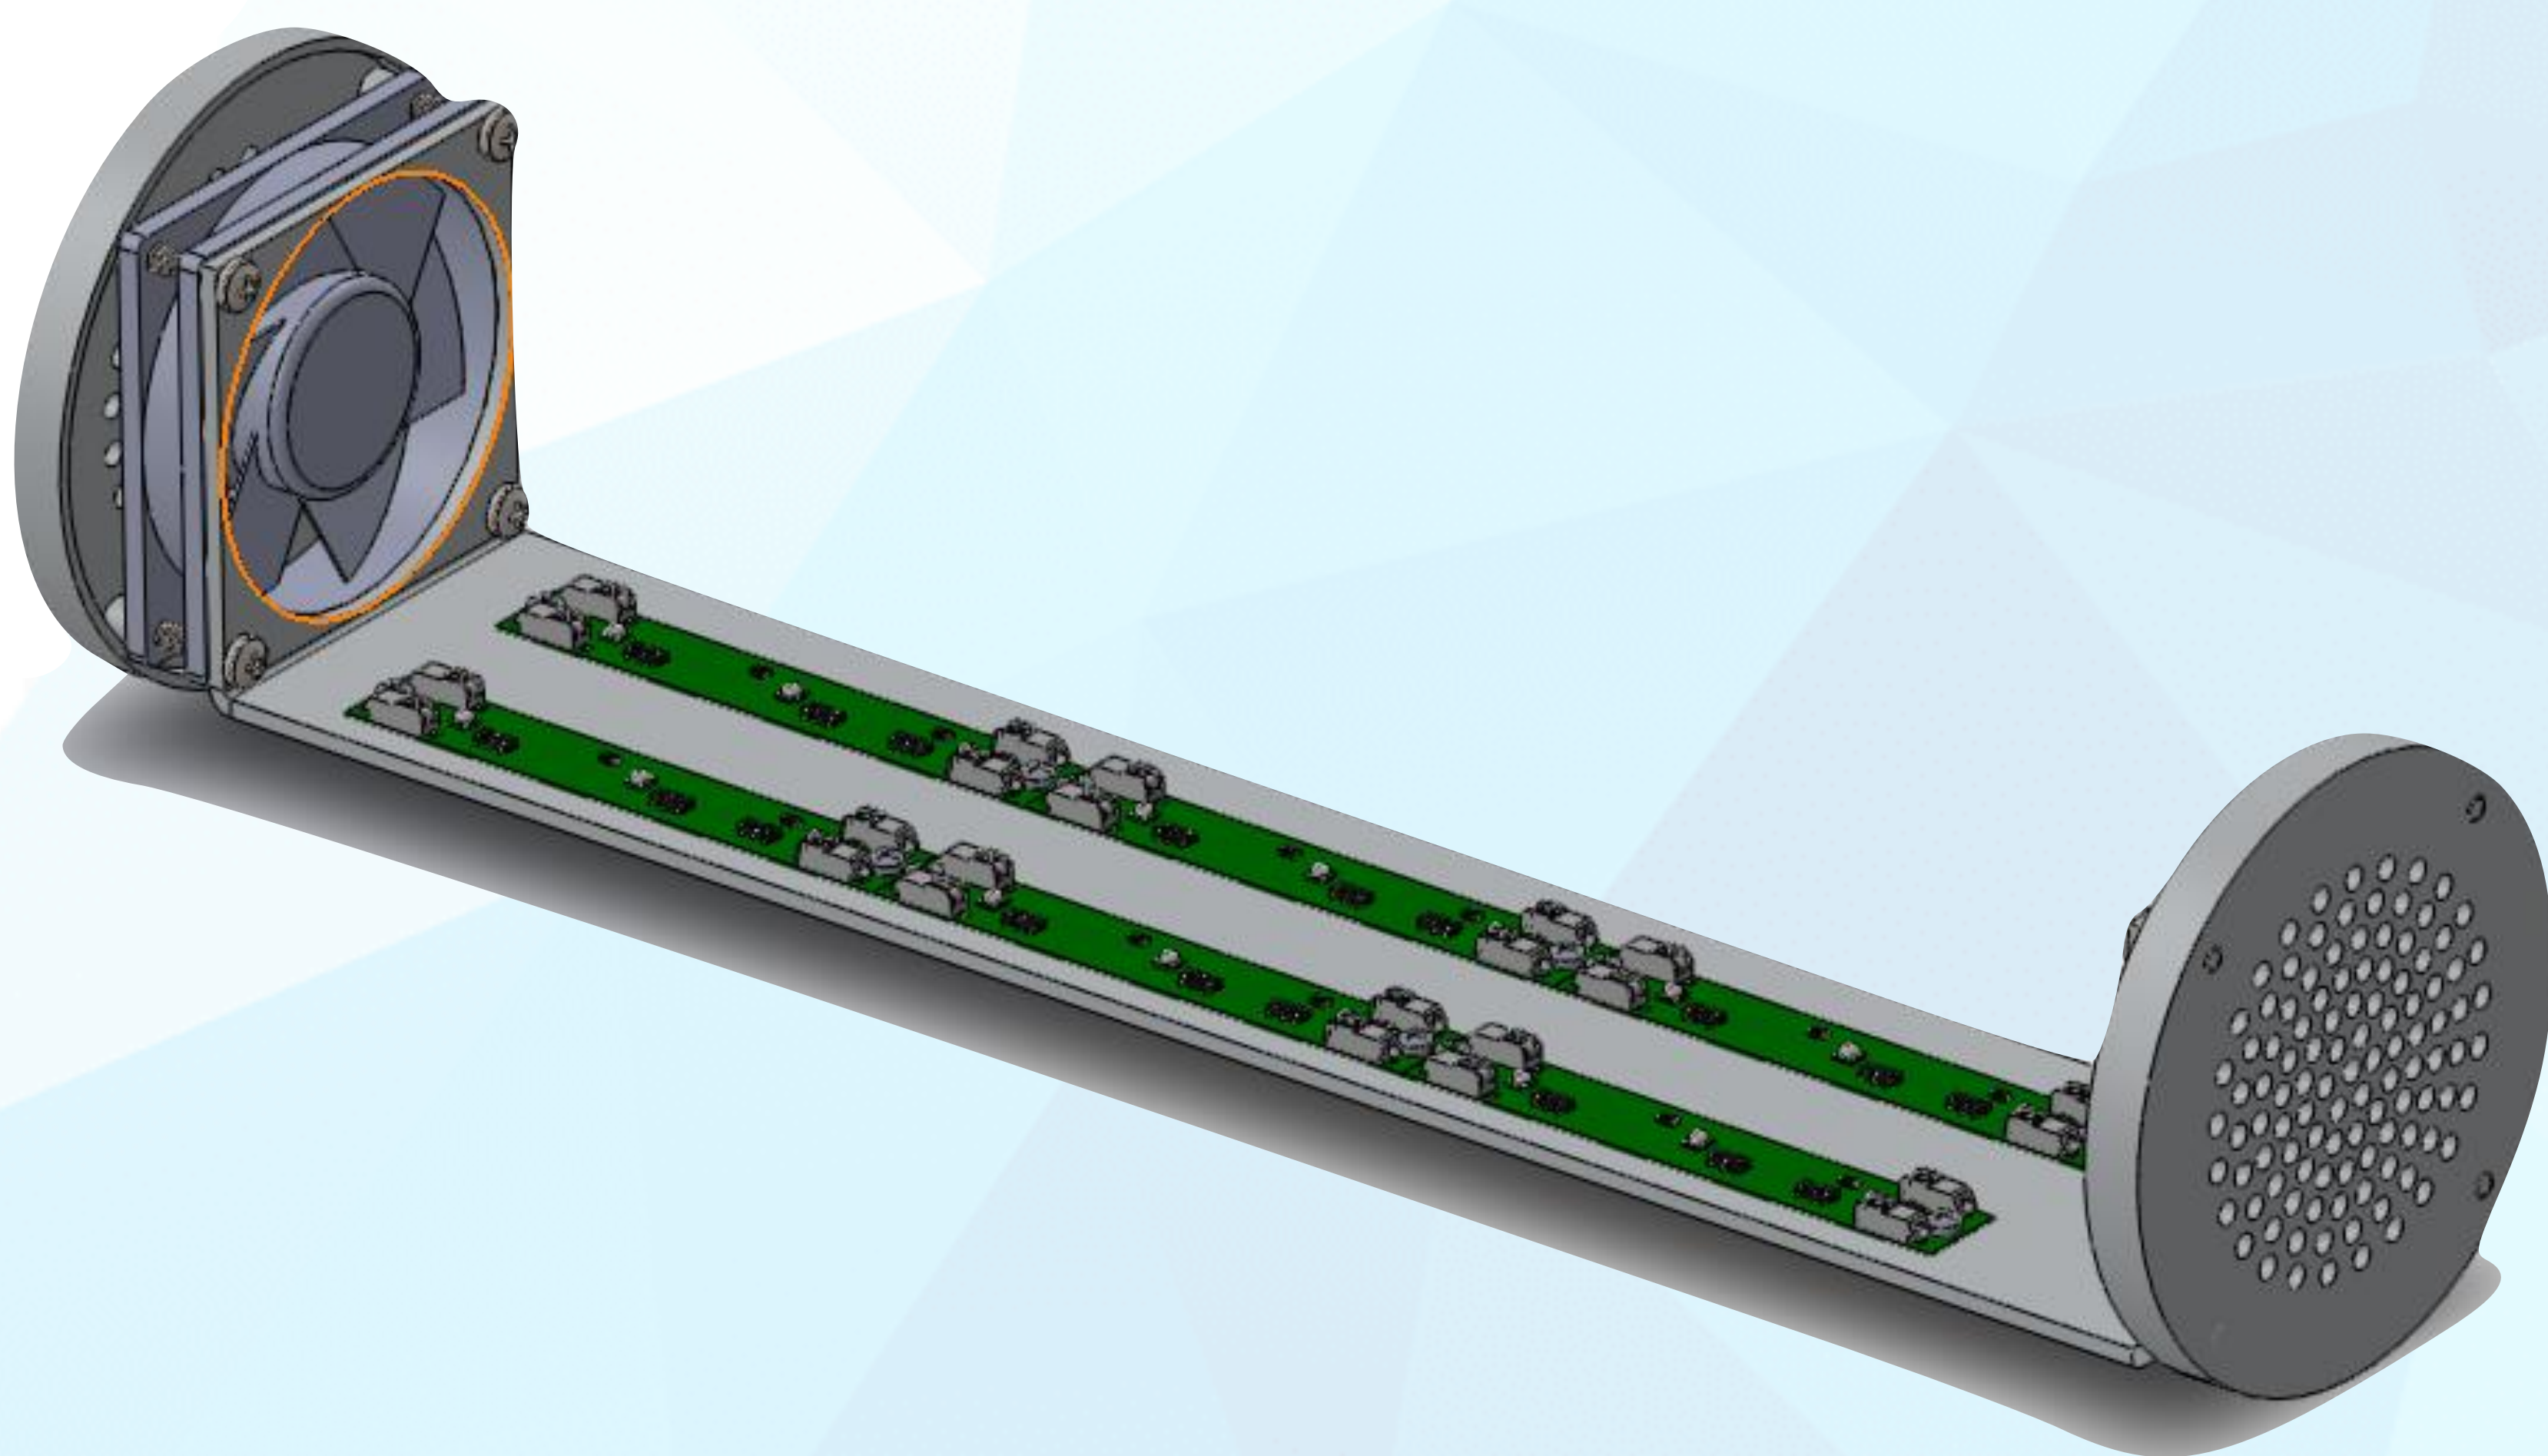

It also has the ability to be **managed by an app**, which makes it so practical and smart.

They can be applied in any type of place: healthcare, school, public, hotel, gyms, offices, homes, etc.

Attentive not only to the main feature of our product, but also to its **design**, we offer a minimalist and functional line, applicable both on a flat surface and on a vertical surface. We also offer three color variants: white, black and gray / aluminum.

All of our products, thanks to the development of cutting-edge technology, **are able to eliminate 99.9% of the bacteria and viruses** present in the air that is being treated. This fact, combined with the continuous studies in our laboratories, places us as a leader in our market segment worldwide.

SterilTube 40

Product name	SterilTube 40
UV-C wavelength	265 nm-285 nm
Lamp life	90.000 hours
Scope of sanitation	16 m³/h
UV-C lamp	YKP3535+IC
Voltage	220 Vac/ 12 Vdc
Power consumption	18 Watt
Material	Aluminum
Power of UV-C radiation	5 W
Noise emissions (dB)	35,8 dB
Weight	0.75 Kg
Length	382 mm
Degree of protection	IP42

SterilTube 100

Product name	SterilTube 100
UV-C wavelength	265 nm-285 nm
Lamp life	90.000 hours
Scope of sanitation	35.93 m³/h
UV-C lamp	YKP3535+IC
Voltage	220 Vac/ 12 Vdc
Power consumption	24 Watt
Material	Aluminum
Power of UV-C radiation	5 W
Noise emissions (dB)	35 dB
Weight	1.5 Kg
Length	600 mm
Degree of protection	IP42

SterilTube 150

Product name	SterilTube 150
UV-C wavelength	265 nm-285 nm
Lamp life	90.000 hours
Scope of sanitation	100.241 m³/h
UV-C lamp	YKP3535+IC
Voltage	220 Vac / 12 Vdc
Power consumption	35 Watt
Material	Aluminum
Power of UV-C radiation	5 W
Noise emissions (dB)	35 dB
Weight	2.5 Kg
Length	1100 mm
Degree of protection	IP42
